

MACIEJ K. KOZAK

2012-2025

MACIEJ K. KOZAK, M.Arch. founder and principal

I am an architect and business owner, running a boutique office, driven by the idea that with the right team, proper work culture, knowledge, experience and talent we can turn every concept into doable physical item. Joy of seeing things taking shape on the paper and later on workshop floor drives me to lead my team through this journey.

EDUCATION:

Tadeusz Kościuszko University of Technology, Kraków, PL
Master of Architecture (M.Arch.) RIBA accredited
Architecture and Urban Planning, 2006-2011

OUR STORY

Our journey began just after my graduation, driven by a strong desire to take control of my career and set up my own studio. What started as a one-person operation, creating custom drawings for clients, quickly grew as the demand for our work expanded. As I took on more challenging projects, I was fortunate enough to hire talented individuals who shared the same vision for excellence.

As our reputation grew, a number of our clients began asking a question that would change the course of our business: **"Can you also make the pieces you're drafting?"** Inspired by this challenge, I decided to take the next step and build a workshop from the ground up. With a team of skilled craftsmen, we began turning our designs into high-quality, bespoke items.

Delivering our crates to in New York City — a place where the competition for excellence and quality is fierce — was a bold move. But despite the intense market, we were committed to creating exceptional products that stood out in both craftsmanship and finish. Today, we continue to expand, seeking new opportunities in the luxury market, and we remain focused on our original mission: to provide beautifully crafted, one-of-a-kind pieces that blend art and luxuriousness.
